

Roberto Salas Hernández

Software Engineer

✉ hi@beto.page | 📍 México | 🌐 beto.page | 🔗 linkedin.com/in/rsalas6 | 🐙 github.com/rsalas6

PROFILE

Software engineer with over ten years of experience developing scalable web applications and automation systems. Specialized in software architecture, process optimization, and cloud solutions. I have collaborated with international companies such as Nike, Kimberly Clark, and Unilever, as well as on data annotation projects for AI leaders like Meta, Google, and OpenAI.

PROFESSIONAL EXPERIENCE

Software Engineer

06/2026 - Present

micro1

Remoto

- Responsible for the flow system, serving hundreds of thousands of concurrent users
- flow lets teams kick off a pipeline in minutes, onboarding and scaling data annotation in minutes instead of days

Single Thread Owner (STO) – AI/ML Data Projects

09/2024 - 11/2024

Scale AI

Remoto

- Single Thread Owner of data annotation projects, with end-to-end ownership of scope, quality, and delivery
- Evaluated over 1,500 tasks across ML/AI projects, focusing on RLHF
- Conducted code quality assessments ensuring best practices
- Developed unit tests to verify model accuracy across scenarios
- Provided feedback to improve model performance and reliability

Software Engineer

01/2021 - 06/2026

Distritomkt

CDMX, México

- Developed over 15 headless applications for Nike, Kimberly Clark, Unilever, Envu
- Transitioned admin functions from Monday.com to custom CRM, managing 1,300+ projects
- Created training platform for 50+ retail stores nationwide

Software Engineer

05/2019 - 12/2020

Autoproyecto

California, USA (Remote)

- Migrated leading Spanish automotive site in US to AWS, handling 5M+ visits/month
- Achieved perfect Lighthouse score of 100
- Developed file management system on AWS S3
- Integrated 30+ services including Toyota and NBC
- Maintained 99% uptime

Head of Information Technology

2018 - 2019

Universidad Tecnológica de Huejotzingo
Puebla, México

- Directed and resolved communication and computer equipment issues
- Initiated rewriting of main university system with modern technologies

EDUCATION

2009 - 2014

Bachelor's Degree in Computer Science Engineering
Benemérita Universidad Autónoma de Puebla
Professional License No.: 11839022

2020 - 2022

Master's Degree in Computer Security
Universidad Internacional de La Rioja
Professional License No.: 13012554

2020 - 2021

Master's Degree in Data Science
Universidad Tecnológica en Línea
Professional License No.: 12812495
